### PROFILE

I'm an aspiring 2D Animator (both traditional and rigged) currently studying at the Savannah College of Art and Design for my BFA degree in 2D Animation. I'm passionate about storytelling through animation and design, with a specialization in character development. I utilize industry-standard programs such as Toon Boom Harmony, After Effects, and Adobe Photoshop. I'm experienced in leading collaborative productions as well as producing high-quality work under tight deadlines. I'm looking for opportunities to be a part of open internships or small films looking for help, so feel free to contact me if you're interested in my work!
